EVALUATOR'S STATEMENT

IEE, LLC evaluations are based on the judgment of evaluators experienced in international education, a review of current literature, and documentation provided. We are members of NACES (National Association of Credential Evaluation Services), AACRAO (American Association of Collegiate Registrars and Admissions Officers), and NAFSA: Association of International Educators; we refer to guidelines established by these organizations in the preparation of our evaluations. Our evaluations reflect the current policies and standards within the educational environment as of the date of this evaluation. This evaluation is advisory only and is in no way binding on any U.S. institution, agency, or organization, each of which has the authority to make decisions that it chooses in regard to the application of our educational equivalencies.

Bradley Griffin
Senior Evaluator

Founded in 1981, International Education Evaluations, Inc. (IEE) provides quality evaluation services for foreign academic credentials. IEE evaluations are based on the judgment of experienced international credential evaluators who have access to IEE's extensive database physical and electronic research resources. We are members of NACES, NAFSA, AACRAO, and TAICEP. Our evaluations reflect the current policies and standards within the international educational environment as of the date of this evaluation.

Non-binding Nature of Evaluations: IEE evaluations are advisory in nature and are in no way binding on any U.S. institution, agency, or organization, each of which has the authority to make its own decision regarding the educational credentials, grades, and credits described in IEE's evaluation reports.

Types of Evaluations: IEE offers two types of evaluations. The Document Report states the U.S. equivalent degree of the foreign credential. The Course Report states the U.S. equivalent degree of the foreign credential, as well as the U.S. equivalent credits, grades, and GPA from the foreign transcript.

Credits: On IEE's Course-by-Course Analyses, high school credits are reported in Carnegie Units, with 6-7 units representing one year of full-time study. For post-secondary level credits, IEE uses the U.S. four-year bachelor's degree, worth 120-144 credits, as its benchmark. Post-secondary credits are reported in semester hours format, with 30 to 36 semester hours representing one year of full-time study. Foreign credits may have differing definitions, and as such may be reduced on the evaluation to reflect the appropriate U.S. credit equivalency. As IEE's reports are not legally binding, each educational institution in the United States has the ability to interpret and apply the credits given on the report according to their institutional policies.

Grades: Foreign grades are converted to the U.S. four-point letter scale (A, B, C, D, F). IEE does not use plus (+) and minus (-) grades. The amount of grade points assigned to each grade is as follows:

Grade	Grade Points
A	4
B	3
C	2
D	1
F	0

Grade Point Averages (GPA) : The total number of grade points are calculated by multiplying the point value of each class by the credit value of the same class. The grade point average is then calculated by dividing the total number of grade points earned by the number of credits attempted.

Example:

3 credits with a grade of A (4.0) = $3 \times 4 = 12$ grade points
6 credits with a grade of B (3.0) = $6 \times 3 = 18$ grade points
2 credits with a grade of C (2.0) = $2 \times 2 = 4$ grade points
3 credits with a grade of D (1.0) = $3 \times 1 = 3$ grade points

Total number of grade points = $12 + 18 + 4 + 3 = 37$

Total credits attempted = $3 + 6 + 2 + 3 = 14$

Divide the total number of grade points earned by the number of credits attempted: $37 \div 14 = 2.64$

Extra Copies – You may order an extra copy of your evaluation report at www.myiee.org. If your evaluation is older than 5 years a revision fee will apply. If your evaluation is older than 10 years, you must reapply for evaluation.

Documentation Requirements: Documentation requirements vary by country. IEE reserves the right to request additional official/original academic records or to request verification of document authenticity, should it be deemed necessary. IEE reserves the right to refuse service if appropriate documentation is not provided.

- IEE will not issue an evaluation in the event that the documents presented exhibit features that suggest inauthenticity. However, IEE recognizes that some document security features not visible when looking at a scanned image, so we highly recommend that any institution or organization receiving a scan-based evaluation require the student to submit original documents or ask their foreign school to send such to IEE for a revised final evaluation when conditions allow.
